> I am writing on my behalf and also as a member of NotmytollRoad a grass roots organization that fought to stop an unneeded toll road from coming through South OC and our town of San Clemente. We have very little land left that has been untouched by bulldozers and is home to our wildlife and other natural resources. Once paved over it is destroyed and affects us all! Just look at our beach sand or I should say lack of it! With the rivers being diverted from carrying the sediments and sand back down to our beaches to replenish the sand naturally we are left with eroding beaches. Also our residential neighborhoods are now seeing more and more coyotes and these coyotes are killing their beloved pets due to the ever shrinking of their natural habitat!

> We do need transportation for our residents but must balance it out with what is precious and necessary for us to sustain a good quality of life, our whole ecosystem around us!

Thank you Laura Smith
