Profile of Imperial County
Southern California Association of Governments’ (SCAG) Regional Council includes 69 districts which represent 191 cities in the SCAG region.

This profile report was prepared by the Southern California Association of Governments and shared with Imperial County. SCAG provides local governments with a variety of benefits and services including, for example, data and information, GIS training, planning and technical assistance, and sustainability planning grants.

I. Introduction

The purpose of this report is to provide current information and data for Imperial County for planning and outreach efforts. Information on population, housing, transportation, employment, retail sales, and education can be utilized by the city to make informed planning decisions. The profile provides a portrait of the county and its changes since 2000, using average figures for SCAG Region as a comparative baseline. In addition, the most current data available for the region is also included in the Statistical Summary (page 3). This profile demonstrates the current trends occurring in Imperial County.

The Southern California Association of Governments (SCAG) is the largest Metropolitan Planning Organization (MPO) in the nation. The SCAG region includes six counties (Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura) and 191 cities. As the designated MPO, SCAG is mandated by federal law to research and develop a Regional Transportation Plan (RTP), which incorporates a Sustainable Communities Strategy (SCS) per California state law. SCAG is currently undertaking a variety of planning and policy initiatives to foster a more sustainable Southern California.

In 2008, SCAG initiated the Local Profiles Project as a part of a larger initiative to provide a variety of services to its member cities and counties. Through extensive input from member jurisdictions, the inaugural Local Profiles Reports were released at the General Assembly in May 2009. The Profiles have been updated every two years.

Local Profiles provide basic information about each member jurisdiction including, but not limited to, the following:
- How much growth in population has taken place since 2000?
- Has the local jurisdiction been growing faster or slower than the county or regional average?
- Have there been more or fewer school-age children?
- Have homeownership rates been increasing or decreasing?
- How and where do residents travel to work?
- How has the local economy been changing in terms of employment share by sectors?
- Have the local retail sales revenues recovered to pre-recession levels?

Answers to questions such as these provide a snapshot of the dynamic changes affecting each local jurisdiction.

Factors Affecting Local Changes Reflected in the 2015 Report

Overall, member jurisdictions since 2000 were impacted by a variety of factors at the national, regional, and local levels. For example, the vast majority of member jurisdictions included in the 2015 Local Profiles reflect the national demographic trends toward an older and a more diverse population. Evidence of the slow progress toward economic recovery is also apparent through gradual increases in employment, retail sales, building permits, and home prices. Work destinations and commute times correlate with regional development patterns and the geographical location of local jurisdictions, particularly in relation to the regional transportation system.
Uses of the Local Profiles

Following release at the SCAG General Assembly, the Local Profiles are posted on the SCAG website and are used for a variety of purposes including, but not limited to, the following:

- Data and communication resources for elected officials, businesses, and residents
- Community planning and outreach
- Economic development
- Visioning initiatives
- Grant application support
- Performance monitoring

The primary user groups of the Profiles include member jurisdictions and state and federal legislative delegates of Southern California. This profile report is a SCAG member benefit and the use of the data contained within this report is voluntary.

Report Organization

This profile report has three sections. The first section presents a Statistical Summary for Imperial County. The second section provides detailed information organized by subject areas and includes brief highlights on the impacts of the recent economic recession and recovery at the regional level. The third section, Methodology, describes technical considerations related to data definitions, measurement, and data sources.

* Numbers with [ ] represent Imperial County’s share of SCAG Region. The other numbers represent the difference between Imperial County and SCAG Region.

Mapped jurisdictional boundaries are as of July 1, 2012 and are for visual purposes only. Report data, however, are updated according to their respective sources.
II. Population

Population Growth

- Between 2000 and 2014, the total population of Imperial County increased by 38,311 to 180,672 in 2014.
- During this 14-year period, the county’s population growth rate of 26.9 percent was higher than the SCAG Region rate of 12.3 percent.
- 0.97% of the total population of SCAG Region is in Imperial County.

Source: California Department of Finance, E-5, 2014
**Population by Age**

- Between 2000 and 2014, the age group 55-64 experienced the largest increase in share, growing from 7 to 10.3 percent.
- The age group that experienced the greatest decline, by share, was age group 5-20, decreasing from 29.2 to 25.5 percent.
- The age group 21-34 added the most population, with an increase of 14,207 people between 2000 and 2014.

Sources: 2000 and 2010 U.S. Decennial Census; Nielsen Co., 2014
**Population by Race/Ethnicity**

**Hispanic or Latino of Any Race: 2000, 2010, and 2014**

- Between 2000 and 2014, the share of Hispanic population in the county increased from 72.2 percent to 81.0 percent.

- Between 2000 and 2014, the share of Non-Hispanic White population in the county decreased from 20.2 percent to 12.8 percent.

- Please refer to the Methodology section for definitions of the racial/ethnic categories.

- Between 2000 and 2014, the share of Non-Hispanic Asian population in the county decreased from 1.7 percent to 1.5 percent.

- Between 2000 and 2014, the share of Non-Hispanic Black population in the county decreased from 3.6 percent to 3.0 percent.
Between 2000 and 2014, the share of Non-Hispanic American Indian population in the county decreased from 1.2 percent to 0.9 percent.

Between 2000 and 2014, the share of All Other Non-Hispanic population group in the county decreased from 1.5 percent to 0.9 percent.
III. Households

**Number of Households (Occupied Housing Units)**

- Between 2000 and 2014, the total number of households in Imperial County increased by 10,382 units, or 26.4 percent.

- During this 14-year period, the county’s household growth rate of 26.4 percent was higher than the SCAG region growth rate of 9.8 percent.

- 0.83 percent of SCAG Region’s total number of households are in Imperial County.

- In 2014, the county’s average household size was 3.5, higher than the SCAG region average of 3.2.

**Sources:** 2000 and 2010 U.S. Decennial Census; California Department of Finance, E-5, 2014

**Average Household Size: 2000 - 2014**

Source: California Department of Finance, E-5, 2014
**Households by Size**

Percent of Households by Household Size: 2014

- In 2014, 57.3 percent of all county households had 3 people or fewer.
- About 17 percent of the households were single-person households.
- Approximately 25 percent of all households in the county had 5 people or more.

**Households by Income**

Percent of Households by Household Income: 2014

- In 2014, about 58 percent of households earned less than $50,000 annually.
- Approximately 15 percent of households earned $100,000 or more.
**Household Income**

- From 2000 to 2014, median household income increased by $7,169.
- Note: Dollars are not adjusted for annual inflation.

Source: Nielsen Co., 2014

**Renters and Homeowners**

Between 2000 and 2014, homeownership rates decreased and the share of renters increased.

Source: U.S. Census Bureau, 2014, LODES Data; Longitudinal-Employer Household Dynamics Program, 2011

- This table identifies the top 10 locations where residents from Imperial County commute to work.
- 67.9% work in the county where they live, while 32.1% commute to other places.
Total jobs include wage and salary jobs and jobs held by business owners and self-employed persons. The total job count does not include unpaid volunteers or family workers, and private household workers.

In 2013, total jobs in Imperial County numbered 62,154, an increase of 3 percent from 2007.

Manufacturing jobs include those employed in various sectors including food; apparel; metal; petroleum and coal; machinery; computer and electronic products; and transportation equipment.

Between 2007 and 2013, the number of manufacturing jobs in the county decreased by 1.1 percent.
Jobs in Construction: 2007 - 2013

- Construction jobs include those engaged in both residential and non-residential construction.
- Between 2007 and 2013, construction jobs in the county increased by 18.7 percent.

Jobs in Retail Trade: 2007 - 2013

- Retail trade jobs include those at various retailers including motor vehicle and parts dealers, furniture, electronics and appliances, building materials, food and beverage, clothing, sporting goods, books, and office supplies.
- Between 2007 and 2013, the number of retail trade jobs in the county increased by 1.4 percent.
Jobs in Professional and Management: 2007 - 2013

- Jobs in the professional and management sector include those employed in professional and technical services, management of companies, and administration and support.

- Between 2007 and 2013, the number of professional and management jobs in the county increased by 6.7 percent.
From 2007 to 2013, the share of Education/Health jobs increased from 16.9 percent to 22.7 percent.

See Methodology Section for industry sector definitions.

In 2013, the Education/Health sector was the largest job sector, accounting for 22.7 percent of total jobs in the county.

Other large sectors included Agriculture (14.8 percent), Retail (14.4 percent), and Public (13.9 percent).
Average Salaries

- Average salaries for jobs located in the county increased from $28,471 in 2003 to $34,891 in 2013, a 22.5 percent change.

- Note: Dollars are not adjusted for annual inflation.

Average Annual Salary by Sector: 2013 ($ thousands)

Source: California Employment Development Department, 2013

- In 2013, the employment sector providing the highest salary per job in the county was Public Administration ($65,864).

- The Leisure-Hospitality sector provided the lowest annual salary per job ($16,096).
VII. Retail Sales

Real Retail Sales: 2001 - 2013 (in 2013 $ millions)

Source: California Board of Equalization, 2001-2013

- Real (inflation adjusted) retail sales in Imperial County increased by 30 percent between 2000 and 2005.
- Real retail sales decreased by 17.2 percent between 2005 and 2013.

Real Retail Sales per Person: 2001 - 2013 (in 2013 $ thousands)

Source: California Board of Equalization, 2001-2013

- Between 2001 and 2013, retail sales per person for the county decreased from $9,651 to $8,237.
VIII. Education

**K-12 Public School Student Enrollment: 2000 - 2014**

Between 2000 and 2014, total K-12 public school enrollment for schools within Imperial County increased by 4,490 students, or about 13.4 percent.

**K-6 Public School Student Enrollment: 2000 - 2014**

Between 2000 and 2014, total public elementary school enrollment increased by 2,023 students or 11.1 percent.
Grades 7-9 Public School Student Enrollment: 2000 - 2014

- Between 2000 and 2014, total public school enrollment for grades 7-9 increased by 1,268 students or 16.2 percent.

Grades 10-12 Public School Student Enrollment: 2000 - 2014

- Between 2000 and 2014, total public school enrollment for grades 10-12 increased by 1,199 students, about 16.2 percent.
In 2014, 64.5 percent of the population 25 years and over completed high school or higher, which is higher than the 2000 level.

In 2014, 13.3 percent of the population 25 years and over completed a Bachelor’s degree or higher, which is higher than the 2000 level.
IX. SCAG Regional Highlights

Regional Median Sales Price for Existing Homes: 2000 - 2014

- After reaching its peak in 2007, the median sales price for existing homes in the SCAG region dropped by almost half by 2011 from its 2007 level and rebounded from 2012 to 2014.
- Median home sales price was calculated based on total existing home sales in the SCAG region.

Regional Real Retail Sales: 2001 - 2013

- Retail sales tend to follow closely with trends in personal income, employment rates, and consumer confidence.
- Between 2001 and 2005, real (inflation adjusted) retail sales increased steadily by 19 percent but then dropped between 2005 and 2009 by $52 billion, or 25 percent.
- In 2013, total real retail sales were three percent higher than the 2001 level.
X. Data Sources

California Department of Education
California Department of Finance, Demographic Research Unit
California Employment Development Department, Labor Market Information Division
California State Board of Equalization
Construction Industry Research Board
InfoGroup
MDA Data Quick
Nielsen Company
U.S. Census Bureau
XI. Methodology

SCAG’s Local Profiles utilizes the most up-to-date information from a number of publically available sources, including the U.S. Census Bureau, California Department of Finance, and the California Department of Education. In the event that public information is not available or is not the most recent, SCAG contracts with a number of private entities to obtain regional data. The following sections describe how each data source was compiled to produce the information displayed in this report.

Statistical Summary Table

In the Statistical Summary Table (page 3), the values in the field “Jurisdiction Relative to County/Region” represent the difference between the jurisdiction’s value and the county/region value, except for the following categories which represent the jurisdiction’s value as a share of the county (or in the case of an entire county as a share of the region): Population, Number of Households, Number of Housing Units, Number of Jobs, Total Jobs Change, and K-12 Student Enrollment.

Median Age, Homeownership Rate, and Median Household Income are based on Nielsen Company data. Number of Housing Units is based on the 2010 Census and estimates from the California Department of Finance. Data for all other categories are referenced throughout the report.

Population Section

Where referenced, data from 2000 to 2014 was taken from the California Department of Finance’s (DOF) E-5 estimates, which were published in May 2014. This dataset was benchmarked to population figures from the 2000 and 2010 U.S. Decennial Censuses. Data relating to population by age group and by race/ethnicity was derived from the 2000 and 2010 U.S. Decennial Censuses, and Nielsen Co. The 2000 figure was based on U.S. Decennial Census figures for April 1, 2000 and the 2010 figure was based on U.S. Decennial Census figures for April 1, 2010.

Below are definitions for race and ethnicity, taken from the U.S. Census Bureau.

The Hispanic or Latino origin category is:
- A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.

The race categories are:
- American Indian or Alaska Native – A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.
- Asian – A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
- Black or African American – A person having origins in any of the black racial groups of Africa, including those who consider themselves to be "Haitian."
• White – A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

• Some other race – This category includes Native Hawaiian or Other Pacific Islander (a person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands) and all other responses not included in the "American Indian or Alaska Native," "Asian," "Black or African American," and "White" race categories described above.

Households Section

The 2000 figure was based on U.S. Decennial Census figures for April 1, 2000 and the 2010 figure was based on U.S. Decennial Census figures for April 1, 2010. Information for 2014 was supplied by the Nielsen Company. Average household size was developed using information from the California Department of Finance (DOF). Households by Size was calculated based on Nielsen Company data. Households refer to the number of occupied housing units.

Housing Section

Housing units are the total number of both vacant and occupied units. Housing units by housing type information was developed using data from the California Department of Finance (DOF). Age of housing stock information is from the Nielsen Company.

The number of residential units with permits issued was obtained using Construction Industry Research Board data, which are collected by counties and are self-reported by individual jurisdictions. It represents both new single family and new multifamily housing units that were permitted to be built, along with building permits that were issued for improvements to existing residential structures (e.g., re-roofs, remodels). Please note that SCAG opted to report the annual number of permits issued by each jurisdiction which may be different than the number of housing units completed or constructed annually. This was done using a single data source which provides consistent data for all jurisdictions. The Construction Industry Research Board defines “multi-family housing” to include duplexes, apartments, and condominiums in structures of more than one living unit.

The median home sales price, compiled from MDA Data Quick, was calculated based on total resales of existing homes in the jurisdiction, including single family units and condominiums. The median price does not reflect the entire universe of housing in the jurisdiction, only those that were sold within the calendar year.

Transportation Section

The journey to work data for the year 2000 was obtained by using the 2000 U.S. Decennial Census Summary File 3. Data for 2010 is based on the 2010 U.S. Census American Community Survey. Information for 2014 was provided by the Nielsen Company.
**Employment Section**

Data sources for estimating jurisdiction employment and wage information include the 2010 U.S. Census Bureau Local Employment Dynamics Survey, and information from the California Employment Development Department, InfoGroup, and SCAG for years 2007-2013. In many instances, employment totals from individual businesses were geocoded and aggregated to the jurisdictional level.

Employment information by industry type is defined by the North American Industry Classification System (NAICS). Although the NAICS provides a great level of detail on industry definitions for all types of businesses in North America, for the purposes of this report, this list of industries has been summarized into the following major areas: agriculture, construction, manufacturing, wholesale, retail, information, finance/insurance/real estate, professional/management, education/health, leisure/hospitality, public administration, other services, and non-classified industries.

A brief description of each major industry area is provided below:

- **Agriculture** – This industry includes crop production, animal production and aquaculture, forestry and logging, fishing hunting and trapping, and support activities for agriculture and forestry.
- **Construction** – Industries under this umbrella involve the construction of buildings, heavy and civil engineering construction, and specialty trade contractors.
- **Manufacturing** – This group includes the processing of raw material into products for trade, such as food manufacturing, apparel manufacturing, wood product manufacturing, petroleum and coal products manufacturing, chemical manufacturing, plastics and rubber products manufacturing, nonmetallic mineral product manufacturing and primary metal manufacturing.
- **Wholesale** – Wholesale industries do business in the trade of raw materials and durable goods.
- **Retail** – Retail industries engage in the sale of durable goods directly to consumers.
- **Information** – Businesses in this industry specialize in the distribution of content through a means of sources, including newspaper, periodicals, books, software, motion pictures, sound recording, radio and television broadcasting, cable or subscription programming, telecommunications, data processing/hosting, and other information mediums.
- **Finance/Insurance/Real Estate** – This sector includes businesses associated with banking, consumer lending, credit intermediation, securities brokerage, commodities exchanges, health/life/medical/title/property/casualty insurance agencies and brokerages, and real estate rental/leasing/sales.
- **Professional Management** – This industry involves businesses that specialize in professional/scientific/technical services, management of companies and enterprises, and administrative and support services. Types of establishments that would fall under this category range from law offices, accounting services, architectural/engineering firms, specialized design services, computer systems design and related services, management consulting firms, scientific research and
development services, advertising firms, office administrative services, facilities support services, among many others.

- **Education/Health** – Organizations include elementary and secondary schools, junior colleges, universities, professional schools, technical and trade schools, medical offices, dental offices, outpatient care centers, medical and diagnostic laboratories, hospitals, nursing and residential care facilities, social assistance services, emergency relief services, vocational rehabilitation services, and child day care services.

- **Leisure/Hospitality** – These industries include organizations in the performing arts, spectator sports, museums, amusement/recreation industries, traveler accommodations, and food and drink services.

- **Public Administration** – This classification includes public sector organizations, including legislative bodies, public finance institutions, executive and legislative offices, courts, police protection, parole offices, fire protection, correctional institutions, administration of governmental programs, space research and technology, and national security.

- **Other Services** – Groups in this group include, for example, automotive repair and maintenance, personal and household goods repair and maintenance, personal laundry services, dry-cleaning and laundry services, religious services, social advocacy organizations, professional organizations, and private households.

- **Non-Classified** – Non-classified organizations involve work activities that are not included in the North American Industry Classification System.

**Retail Sales Section**

Retail sales data is obtained from the California Board of Equalization, which does not publish individual point-of-sale data. All data is adjusted for inflation.

**Education Section**

Student enrollment data is based on public school campuses that are located within each jurisdiction’s respective boundary. Enrollment numbers by grade within a given jurisdiction are tabulated based upon data obtained from the California Department of Education. Enrollment year is based on the end date of the school year; for example, enrollment data for the year 2000 refers to the 1999-2000 school year. City boundaries used in the dataset for all years is based on data provided by the Local Agency Formation Commission for each county in the region.

**Regional Highlights**

Information for this section was developed through data from MDA Data Quick and the California Board of Equalization.
Data Sources Section

In choosing the data sources used for this report, the following factors were considered:

- Availability for all jurisdictions in the SCAG region,
- The most recognized source on the subject,
- Data sources within the public domain, and
- Data available on an annual basis.

The same data sources are used for all Local Profiles (except where noted) to maintain overall reporting consistency. The jurisdictions are not constrained from using other data sources for their planning activities.

The preparation of this report has been financed in part through grants from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation, under the Metropolitan Planning Program, Section 104(f) of Title 23, U.S. Code. The contents of this report do not necessarily reflect the official views or policy of the U.S. Department of Transportation. Additional assistance was provided by the California Department of Transportation.
XII. Acknowledgments

SCAG Management
Hasan Ikhrata, Executive Director
Sharon Neely, Chief Deputy Executive Director
Debbie Dillon, Deputy Executive Director, Administration
Joann Africa, Chief Counsel/Director, Legal Services
Huasha Liu, Director, Land Use & Environmental Planning
Rich Macias, Director, Transportation Planning
Darin Chidsey, Director, Strategy, Policy & Public Affairs
Basil Panas, Chief Financial Officer
Catherine Kirschbaum, Chief Information Officer

Project Managers
Ping Chang, Program Manager, Land Use & Environmental Planning
Michael Gainor, Senior Regional Planner

Project Core Team
Kimberly Clark, Senior Regional Planner
Prabhu Rajendran, Senior Application Developer
Jung Seo, Senior Regional Planner
Alex Yu, Manager, Application Development

Reproduction
Pat Camacho, Office Services Specialist

Assistance from the following SCAG staff members is also recognized:
Matthew Abad, SCAG Intern
Precy Agtarap, SCAG Intern
Anita Au, Assistant Regional Planner
Ludlow Brown, Graphics Designer
Diana Chamberlain, Graphics Designer
John Cho, Associate Regional Planner
Christine Delostrinos, SCAG Intern
Stacy Farfan, SCAG Intern
Carolyn Hart, Lead Graphics Designer
Gurpreet Kaur, Programmer Analyst
Cheol-Ho Lee, Senior Regional Planner
JISu Lee, SCAG Intern
Weining Liang, SCAG Intern
Jeff Liu, Manager, Media and Public Affairs
Jonathan Nadler, Manager (former), Compliance & Performance Monitoring
Frank Wen, Manager, Research & Analysis
Ying Zhou, Program Manager II
