**Message :** The ill informed and prejudicial comments of LA County rep Finlay referring to section 8 tenants as 'skid row people' should disqualify her from this position. I am a long term landlord and about half of my tenants receive sec 8 benefits. Lumping this group as problematic and calling for its blacklisting is ignorant and ignores the actual problem of lazy vetting of applicants, be they sec 8 or open market. Please don't ignore her egregious remarks.
