# A TALE OF TWO HORIZONS

Orange County has one of the most beautiful landscapes in California. However, our community, like many others, is challenged by systemic health, housing, educational, economic and opportunity disparities.

How can we close these gaps? At Advance OC, we aim to address these disparities by bringing community stakeholders together to invest in equity focused strategies. We start by developing a Social Progress Index. Using 50 indicators, we can measure, track, and map inequities in our community with neighborhood precision. Doing this enables us to identify root causes, understand social determinants, and help advance Orange County.
