# TRANSIT ORIENTED DEVELOPMENT

## A New Zoning Code for a 21st Century Los Angeles

To create livable communities, encourage sustainable development and foster economic vitality, we need a modern and user-friendly zoning code – we need to **re:code LA**.

# EXISTING CODE

## **MODULAR Strategy** | Balance Flexibility with Predictability

- 1.** Form Base Code LITE
- 2.** USE - FORM - ORIENTATION Approach
- 3.** MODULAR System that disassociates FORM from USE
- 4.** Creation of USE CATEGORIES rather than adopting SPECIFIC USES into the code
- 5.** Use of detailed INTENTION Sections
- 6.** ALTERNATE COMPLIANCE rather than HARDSHIP VARIANCES
- 7.** Emphasis on applying rules IN CONTEXT rather than one size fits all

# **NEW CODE APPROACH**

## **BROAD Goals** | Focus on Accessibility, Simplicity and Transparency

1. SIMPLIFYING the Rules
2. Putting these rules in one location, not 65
3. SIMPLIFYING the code and making it more TRANSPARENT
4. VISUALIZING the code to make it more understandable
5. Creating a WEB-BASED portal to make the code more ACCESSIBLE
6. Make more processes BY-RIGHT, less discretionary
7. Creating new TOOLS that will help communities evolve in productive ways

# GOALS
