

# SoCal Greenprint Technical Advisory Committee Update

In February 2023 the Regional Council approved the Regional Advanced Mitigation Planning (RAMP) Policy Framework, which directed SCAG to convene the SoCal Greenprint Technical Advisory Committee (TAC). The purpose of the TAC is to provide a forum for members to advise SCAG staff on data policies and user guidelines, data governance standards, data selection criteria, data parameters, and a process to resolve potential divergent perspective for the SoCal Greenprint tool.

Membership for the TAC has been finalized and the first meeting will take place on July 26 from 2 p.m. to 5 p.m. The meeting will be open to the public and stakeholders may attend virtually or in person at SCAG's office.

The TAC will meet three times and will culminate with data recommendations for the SoCal Greenprint tool. SCAG will present their recommendations to Energy and Environment Committee in October and Regional Council in November.

SCAG has completed a competitive consultant procurement process and has selected Arup to facilitate the TAC and build the SoCal Greenprint tool.

## Members of the SoCal Greenprint TAC include:

### Caltrans

- Lisa Sato, Biologist, District 12

### County Transportation Commissions

- Marlene Flores, Associate Transportation Planner, ICTC
