BENEFITS OF THE 2012–2035 RTP/SCS FOR City of Los Angeles Subregion

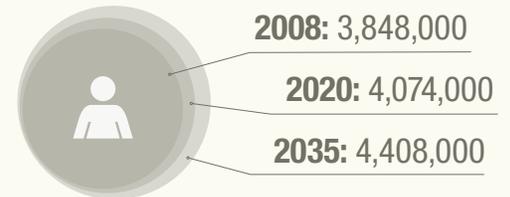

The Southern California Association of Governments (SCAG) undertakes a variety of planning and policy initiatives on behalf of the region, in coordination with its members and stakeholders. SCAG worked with the Los Angeles County Metropolitan Transportation Authority (Metro), elected officials and local jurisdictions in Los Angeles County to develop the 2012–2035 Regional Transportation Plan and Sustainable Communities Strategy (RTP/SCS), a long-range plan that improves overall mobility, reduces greenhouse gases and enhances the quality of life for the region’s residents. Approved by state and federal agencies in June 2012, the plan includes \$180 billion in transportation projects for Los Angeles County. The 2012-2035 RTP/SCS is guided by and incorporates all projects from Metro’s own Long-Range Transportation Plan. The list below features major transportation projects in the City of Los Angeles subregion from a total of 1,614 Los Angeles County-specific projects contained in the 2012-2035 RTP/SCS.

SUSTAINABLE COMMUNITIES STRATEGY BENEFITS

For the first time, SCAG has integrated land use, housing and environmental strategies with transportation planning to help meet emissions reduction targets by the California Air Resources Board. This Sustainable Communities Strategy provides an alternative to “business as usual” development. It encourages community revitalization and neighborhoods that are bike and pedestrian friendly, with convenient access to transit. By implementing these strategies, Los Angeles County will benefit from:

64%

Reduction in Greenfield Land Consumed

(the plan preserves 85 square miles of undeveloped land in Los Angeles County)

Household Costs Savings

(includes Fuel, Auto Operating, Energy, and Water Costs per Household, 2011 dollars)

\$17,200

Business as Usual

\$14,000

SCS Adopted Plan

19%
Savings

\$3,200

Annual Household Savings

On April 4, 2012, the Regional Council of the Southern California Association of Governments (SCAG) adopted the 2012–2035 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS): Towards a Sustainable Future. The RTP/SCS is the culmination of a multi-year effort involving stakeholders from across the SCAG Region.
