

CONFORMITY ANALYSIS

Introduction

Federal Transportation Improvement Program

The Federal Transportation Improvement Program (FTIP) is the federally required multimodal list of capital improvement projects to be implemented over a six year period. The biennial FTIP update, produced on a two year cycle, implements the long-range Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS). The 2023 FTIP implements the transportation projects and programs of the 2020-2045 Regional Transportation Plan/Sustainable Communities Strategy (2020 RTP/SCS or Connect SoCal) in the fiscal years 2022/23 – 2027/28.

Federal Conformity Requirements

Federal and state regulations provide that the Southern California Association of Governments (SCAG), as the designated Metropolitan Planning Organization, may rely on a previous regional emissions analysis when processing amendments, in the event that certain conditions are met. The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) and SCAG have identified the following type of 2023 FTIP amendments for which SCAG may rely on the existing regional emissions analysis:

“Category 3. Formal Amendment – Relying on the Existing Conformity Determination. This amendment may include adding a project or a project phase to the program. This amendment category consists of projects that are modeled and are included in the regional emissions analysis.”¹

Amendment #23-01 relies on the regional emissions analysis for the 2023 FTIP which is identical to the regional emissions analysis for the 2020 RTP/SCS Amendment #2 [Section 93.122(g) is the relevant part of the *Transportation Conformity Regulations* for this amendment].

FTIP Amendment #23-01 Project Description

FTIP Amendment #23-01 includes five projects for which conformity needs to be reaffirmed (see the Conformity Determination Project Listing). Three projects are located in the South Coast Air Basin (SCAB); one project is located in the Mojave Desert Air Basin (MDAB); and one project is located in the Salton Sea Air Basin (SSAB).

Conformity Status of Current RTP and FTIP

The conformity determination for the 2020 RTP/SCS received federal approval on June 5, 2020. On January 4, 2022, SCAG also received federal approval of the transportation conformity determinations for the 2020 RTP/SCS Amendment #1 and the 2021 FTIP Consistency Amendment #21-05.

¹ SCAG, *Final 2023 Federal Transportation Improvement Program Guidelines*, October 2021, page 161. Available at: <https://scag.ca.gov/sites/main/files/file-attachments/proposed-f2023-ftip-guidelines.pdf>

SCAG's Regional Council adopted the 2023 FTIP, the 2020 RTP/SCS Amendment #2, and the associated transportation conformity determinations on October 6, 2022.

The conformity determinations for the 2023 FTIP and the 2020 RTP/SCS Amendment #2 are anticipated to receive federal approval in December 2022.

Summary of Conformity Analysis and Findings

SCAG reaffirms the latest applicable conformity findings for the 2020 RTP/SCS Amendment #2 (<https://scag.ca.gov/sites/main/files/file-attachments/proposed-final-amendment-02-connect-social.pdf?1663871869>) and the 2023 FTIP (<https://scag.ca.gov/2023-ftip>).

This reaffirmation covers the findings for all applicable pollutants², including regional emissions analyses, financial constraint test, timely implementation of Transportation Control Measures (TCMs), applying the use of the latest planning assumptions and the latest approved emissions model, reaffirming consistency between the 2023 FTIP and the 2020 RTP/SCS as amended, and reaffirming the process of interagency consultation and public participation.

SCAG has completed its analysis of the proposed changes to the 2023 FTIP. SCAG's findings for the approval of this amendment are as follows:

Consistency with Current RTP/SCS and FTIP

The five projects needing conformity reaffirmation in 2023 FTIP Amendment #23-01 are from the 2020 RTP/SCS as amended, which is a conforming Plan pending approval by the FHWA/FTA; Amendment #23-01 does not include any new regionally significant project beyond those currently included in the 2020 RTP/SCS as amended, nor does it move a project across any modeling years currently assumed in the 2020 RTP/SCS as amended and the 2023 FTIP; Furthermore, the design, concept, and scope of these five projects do not differ significantly from what were described in the 2020 RTP/SCS as amended and the 2023 FTIP.

Finding: The 2023 FTIP Amendment #23-01 is consistent with the 2020 RTP/SCS as amended and the 2023 FTIP.

Regional Emissions Analysis

This conformity analysis relies on the regional emissions analysis for the 2023 FTIP which is identical to the regional emissions analysis for the 2020 RTP/SCS Amendment #2. The emissions analysis was performed with the SCAG Activity-Based Regional Travel Demand Model and utilized the planning, socioeconomic, and model assumptions for the 2023 FTIP and the 2020 RTP/SCS Amendment #2. FTIP Amendment #23-01 does not result in any modeling changes.

The regional emissions analysis methodology for this amendment to the 2023 FTIP uses currently applicable budgets to determine conformity for all criteria pollutants. Specifically, this conformity reaffirmation is being made for all criteria pollutants and precursors in the MDAB, the South Central Coast Air Basin (SCCAB), the SCAB, and the SSAB.

² Transportation conformity for NO₂ is no longer required in the South Coast Air Basin effective on September 22, 2018.

Finding: The 2023 FTIP Amendment #23-01 regional emissions for Ozone precursors (NO_x, ROG/VOC) [2008 and 2015 National Ambient Air Quality Standards (NAAQS)] are consistent with all applicable emission budgets for all milestone, attainment, and planning horizon years in the Morongo Band of Mission Indians (Morongo), Pechanga Band of Luiseno Mission Indians of the Pechanga Reservation (Pechanga), SCAB excluding Morongo and Pechanga, SCCAB (Ventura County portion), MDAB (Los Angeles County Antelope Valley portion and San Bernardino County western portion of MDAB), and the SSAB (Riverside County Coachella Valley and Imperial County portions of SSAB).

Finding: The 2023 FTIP Amendment #23-01 regional emissions for CO are consistent with all applicable emissions budgets for all milestone, maintenance, and planning horizon years in the SCAB.

Finding: The 2023 FTIP Amendment #23-01 regional emissions for direct PM_{2.5} (1997, 2006 and 2012 NAAQS) and its precursors are consistent with all applicable emissions budgets for all milestone, attainment, and planning horizon years in the SCAB (Pechanga excluded under 2012 NAAQS).

Finding: The 2023 FTIP Amendment #23-01 regional emissions for PM₁₀ and its precursors are consistent with all applicable emissions budgets for all milestone, attainment, and planning horizon years in the SCAB and the SSAB (Riverside County Coachella Valley and Imperial County portions).

Finding: The 2023 FTIP Amendment #23-01 regional emissions analysis for PM_{2.5} (2006 and 2012 NAAQS) meet the interim emission test (build/no-build test) for all milestone, attainment and planning horizon years in the SSAB (urbanized area of Imperial County portion).

Finding: The 2023 FTIP Amendment #23-01 regional emissions for PM₁₀ meet the interim emission test (build/no-build test) for all milestone, attainment and planning horizon years in the MDAB (San Bernardino County portion excluding Searles Valley and Searles Valley portion of San Bernardino County).

Timely Implementation of TCMs

Finding: There is no committed TCM project in the 2023 FTIP Amendment #23-01. The 2023 FTIP Amendment #23-01 does not change timely implementation of all applicable committed TCM projects in the SCAG region.

Fiscal Constraint Analysis

Finding: The 2023 FTIP Amendment #23-01 includes the most recent financial plan for the 2023 FTIP. All projects listed in the 2023 FTIP (including the proposed amendment) are financially constrained for all fiscal years.

Interagency Consultation and Public Involvement Analysis

The regional conformity analysis leading to the pending FHWA and FTA's final approval of the 2020 RTP/SCS Amendment #2 and the 2023 FTIP complies with all federal and state requirements for interagency consultation and public involvement as documented in Technical Appendix, Volume II of the 2023 FTIP (<https://scag.ca.gov/sites/main/files/file->

[attachments/pf2023-ftip-technical-appendix.pdf?1661457369](#)) and the Transportation Conformity Chapter of the 2020 RTP/SCS Amendment #2 (<https://scag.ca.gov/sites/main/files/file-attachments/proposed-final-amendment-02-connect-social.pdf?1663871869>). For the 2023 FTIP Amendment #23-01, SCAG will undergo additional public involvement including solicitation via email for comments from the Transportation Conformity Working Group. In addition, Amendment #23-01 will be posted on SCAG's website (www.scag.ca.gov) for a 10-day public review and comment period.

Finding: The 2023 FTIP Amendment #23-01 complies with all federal and state requirements for interagency consultation and public involvement.

Overall

Finding: SCAG has determined that the 2023 FTIP Amendment #23-01 complies with all applicable federal conformity requirements and regulations.
