TABLE 2 FINANCIALLY-CONSTRAINED RTP/SCS PROJECTS	172
TABLE 3 UNCONSTRAINED PROJECTS	421

1. FRAMEWORK

The Project List is divided into three sections. At the core is the Federal Transportation Improvement Program (FTIP), which forms the foundation of the Regional Transportation Plan / Sustainable Communities Strategy (RTP/SCS) project investment strategy and represents the first six years of already-committed funding for projects requiring federal approval or those that are regionally significant¹. The Southern California Association of Governments (SCAG) prepares the FTIP every two years to implement projects and programs listed in the RTP/SCS. As part of preparing the FTIP, SCAG ensures that included projects further RTP/SCS goals and assist the region in advancing key performance measures. This current RTP/SCS, Connect SoCal 2024, incorporates the adopted 2023 FTIP. The RTP/SCS also contains an additional financially constrained set of transportation investments beyond the FTIP, including expenditures necessary to operate, maintain, and preserve the transportation system over the life of the Plan. Since the previous Connect SoCal was adopted in 2020, SCAG gained new responsibility for the selection of transportation projects to be funded with certain federal revenue sources. SCAG's project selection process follows a performance-based evaluation and selection approach and ensures that selected projects further Connect SoCal goals. SCAG ensures that all projects included in the RTP/SCS align with Plan goals and further the region's progress on key performance measures. Finally, this Technical Report includes a listing of Unconstrained Projects that represent illustrative projects that the region could consider if additional funding were to become available.

As part of the 2023 FTIP, projects from the 2022 State Transportation Improvement Program (STIP) and any subsequent STIP are reviewed for consistency with the RTP/SCS before inclusion into the adopted 2023 FTIP and upcoming 2025 FTIP. The STIP is comprised of the Interregional Transportation Program (ITIP) and Regional Transportation Improvement Program (RTIP). Please note that within the project list, the completion year for non-modeled projects that are exempt from conformity may be inconsistent with upcoming 2025 FTIP amendments or the 2023 FTIP. Since these projects are exempt from conformity, changes in completion years are granted. The project list will be made consistent with the latest FTIP during the next RTP/SCS amendment or adoption. For more information on transportation conformity and the interrelation between the plans and the programs, please refer to Chapter 3 of Connect SoCal 2024 and the Transportation Conformity Analysis Technical Report.

¹ "Regionally significant" refers to projects defined in the U.S. EPA's Transportation Conformity regulations as projects having an impact on regional travel, emissions, and air quality.

THE PROJECT ADDRESSES THE DETERIORATED STATE OF THE CADIZ SUBDIVISION AND IMPROVES VELOCITY FOR THE ENTIRE RAILROAD, INCREASES SAFETY AND EFFICIENCY, REDUCES TRACK SLOW ORDERS, AND ENSURES THE ARZC REMAINS A VALUABLE AND INTEGRAL FREIGHT CORRIDOR FOR YEARS TO COME.	2026	\$40,553

SAN BERNARDINO	OTHER	VARIOUS	5240011					THIS PROJECT WILL CONSTRUCT TWO 22,500-FOOT-LONG STAGING TRACKS, AN 11.2 MILE EXTENSION OF MAIN TRACK 1 TO PROVIDE A THIRD TRACK AT THAT LOCATION, AND ASSOCIATED RAILROAD SIGNAL AND CIVIL, GRADING, AND DRAINAGE IMPROVEMENTS. FREIGHT RAIL SAFETY, VELOCITY, THROUGHPUT, AND RELIABILITY WILL BE IMPROVED BY ALLOWING TRAINS ROUTED BETWEEN THE LOS ANGELES BASIN, SAN BERNARDINO, AND BARSTOW VIA CAJON PASS TO OPERATE ON THE MAIN TRACKS WITHOUT SLOWING OR STOPPING TO MEET OR PASS STAGED TRAINS. THE TWO STAGING TRACKS WILL INCREASE OPERATIONAL FLEXIBILITY AND WILL REDUCE BOTH FREIGHT RAIL DELAYS AND DELAYS TO VEHICLES AT HIGHWAY-RAIL GRADE CROSSINGS BY ALLOWING TRAINS TO BE STAGED OUTSIDE OF THE LOS ANGELES BASIN INSTEAD OF REQUIRING THEM TO BE STAGED ON RAILROAD SIDINGS AT BOTTLENECK LOCATIONS ON THE SHARED-USE SEGMENTS OF THE BNSF NETWORK HOSTING AMTRAK AND METROLINK PASSENGER TRAINS. IT WILL ALLOW FURTHER IMPROVEMENTS TO FREIGHT RAIL IN LOS ANGELES AND SERVE AS THE CATALYST TO TRANSFORM FREIGHT RAIL IN SOUTHERN CALIFORNIA.	2025	\$150,467
